From the Department of Environmental Health & Safety (EH&S)

Thank you for taking the time to read this year's annual fire safety report. This report, prepared annually by the Department of Environmental Health and Safety, is designed to provide you with important information about fire safety on campus.

You may obtain a copy of this report by contacting the Director of Environmental Health and Safety (607)255-8200 or by accessing the following web site:

<http://www.ehs.cornell.edu/firesafetyreport>

You may also view the on-campus student housing fire logs at that web site.

The Department of Environmental Health and Safety is charged with promoting a safe learning, working, and living environment for the University. Our health and safety programs provide services and guidance to campus students, faculty, staff, and visitors. Environmental Health and Safety emergency services personnel are on campus 24 hours a day to respond to safety concerns and emergency situations.

Our department provides a wide array of safety related services including programs in:

- Occupational Safety, Health and Emergency Services
 - Fire Protection Systems and Equipment
 - Emergency Management
 - Emergency Services
 - University Fire Marshal
 - Events Management
 - Occupational Health and Safety
- Research and Laboratory Safety
 - Chemical Safety
 - Biological Safety
 - Radiation Safety
 - Hazardous Waste
- Environmental Compliance
 - Water Programs
 - Bulk Storage
 - Air Programs

Please visit our web site or contact our department for more information.

<http://www.ehs.cornell.edu/>

(607)255-8200

Annual Security Report

You can obtain a copy of Cornell University Annual Security Report by contacting the Chief of Cornell Police (607)255-8945 or by accessing the following web site:

http://www.cupolice.cornell.edu/annual_report/annual_report.cfm

Scope

This Annual Fire Safety Report is for the Cornell University campus located in Ithaca, NY.

Definitions

- On-campus student housing facilities – student housing facilities that are owned or controlled by Cornell University, or are located on property that is owned or controlled by Cornell University, and is within the reasonably contiguous geographic area that makes up the Cornell University Campus in Ithaca, NY.
- Fire – any instance of open flame or other burning in a place not intended to contain the burning or in an uncontrolled manner.
- Fire Alarm System – a central, building-wide alarm system that provides fire detection through the use of smoke and heat detectors, monitors fire suppression systems, sounds building-wide evacuation alarms, and is monitored by the Cornell 911 Center.
- Fire Sprinkler System – water based automatic fire suppression system.
 - Full – the fire sprinkler system provides protection for the entire structure
 - Partial – the fire sprinkler system provides protection for only part of the structure.
- Local Smoke Alarm – a device that contains a smoke detector and an integrated audible alarm. When activated the local smoke alarm sounds an audible alarm but does not activate the facility fire alarm system and or send a alarm signal to the Cornell 911 Center.

Cornell University Campus Life and Residential Programs Fire Safety Policies

The following fire safety related policies for Cornell University on-campus student housing are taken from the current Campus Life Housing Contract Terms and Conditions and the current Residential Program House Rules. Occupants receive a copy of the House Rules and are required to sign an acknowledgement of the rules during check in.

Campus Life and Residential Programs on-campus student housing facilities are the undergraduate student housing facilities, cooperatives, small living units, and married and graduate student housing facilities listed in the Facility Fire Safety Equipment tables starting on page 16 of this document.

To view the specific documents applicable to each type of Campus Life housing facility, please access the Campus Life Housing web site at:

<http://www.campuslife.cornell.edu/campuslife/housing/>

and then select the appropriate housing area on the right side of the page.

Cooking and Appliances

- Kitchenettes are provided in each residence hall for cooking. Residents are expected to abide by the following rules regarding cooking:
- Cooking is prohibited in hallways, bathrooms, and lounges.
- Student may not leave stovetop cooking unattended.
- Appliances with immersion coils, water heaters without thermostatic controls, and exposed coils (e.g., space heaters) are prohibited in the residence halls unless provided by Campus Life Facilities.
- Appliances with self-contained, thermostatically controlled heating elements with automatic shut off may be used in student rooms.
- Appliances with open heating elements may be used in kitchenettes only.
- Stand-alone microwaves are prohibited in individual rooms; students may use the microwave in their building's shared kitchen instead. A "microfridge" (combined microwave and refrigerator) is permitted, as long as it does not draw more than 3 amps (300 watts) to start and 1.5 amps while running. The exception is in the Townhouse Community, where residents may bring a microwave for use in their apartments.
- Due to wattage requirements, refrigerators must be those rented by the University vendor or another of the same wattage requirements.
- Use only electrical equipment identified with the Underwriter's Laboratories label.

Fire Safety

- Tampering with fire extinguishers, sprinklers, fire and emergency doors, and other fire safety equipment, or falsely reporting a fire verbally or by pulling the fire alarm is a threat to safety and will result in an immediate referral to the Judicial Administrator.
- Objects may not be 18 inches or closer to the ceiling or to any fire safety device.
- Failure to follow evacuation procedures during an alarm will result in immediate referral to the Judicial Administrator.
- Storing flammable liquids and gases are not permitted in the residence halls.
- Use of open flame is prohibited in the residence halls.
- Candles and incense may not be used for display, or decoration purposes.
- Candles and incense are not allowed in the residence halls. Candles may be used for religious purposes or approved special events only if they are placed in a stable container, preferably a glass-globe type of holder, and used in a common area with a residence hall staff member present.
- Incense may be used for religious purposes or approved special events only in a sturdy incense holder where ashes and embers will not come in contact with flammable material, and provided it does not negatively impact others in the community. The scent of the incense must be contained within the student's room. Under no circumstance should burning incense be left unattended. Prior arrangements must be made with your RHD or House Assistant Dean.
- Tapestries may not be hung in student rooms.
- Windows in all student rooms come already equipped with drapes, shades, or blinds. Students may not hang their own window treatments in their rooms, unless material is fire rated and labeled as such. Certification must be on file with the area Facilities Manager.
- Students may not leave personal items in hallways or stairwells.
- Extension cords and multi-plug adapters are prohibited in the residence halls. An outlet strip with a breaker switch that is identified with an Underwriter's Laboratories label or listing (UL) is allowed.
- Floor lamps must have the required wattage light bulbs, and cannot exceed what is stated on the lamp's UL label. Label is commonly found on the shade or near the outlet for the light bulb.
- The University is subject to fire and safety inspections by various agencies. If a fine is incurred as a result of your failure to comply with the terms of your Housing Contract or with any request from residence staff or other University staff, you will be responsible for the amount of the fine.

- Please note that the Fire Safety policies are subject to compliance changes and updates based on local and state regulated standards. Advance notice of changes/updates will be provided, whenever possible.

Fireworks

- Fireworks are illegal under New York State law. Any use of fireworks will result in immediate referral to the Judicial Administrator.
- Fireworks of any kind are prohibited in the residence hall.

Decorating Rooms

- No more than one 8 ½" by 11" sheet of paper, per resident, is allowed on the outside of a room door.
- Decorations including natural evergreen trees, wreaths, or boughs are prohibited
- Hanging or extending anything outside the windows is prohibited.
- Floor lamps with halogen bulbs are prohibited.
- "Octopus/spider" lamps are prohibited in the residence halls.
- Internal cables may not be spliced and run to individual rooms.
- Maintenance in student rooms and common areas may only be done by authorized staff.
- Objects may not block the windows.
- You may not hang or post anything on the ceilings.
- You may not hang anything from sprinkler pipes or any part of the fire sprinkler system.
- Covering of smoke detectors and/or sprinkler heads is a life safety issue and is prohibited.
- Tapestries may not be hung in student rooms.

Motor Vehicles

- Storing or parking motorized vehicles in residence halls is not permitted

Health and Safety

- Egress access must be safe and passable at all times, including corridors, stairwells, lounges, other common space and living space. In student rooms, state and city regulations require a minimum of 36 inches between the door and any other item in the room.

Seasonal Decorations

- Real evergreen trees, boughs, and wreaths are not permitted in residence halls. Artificial decorations may be used and must be clearly marked as being made from a slow

burning or a non-combustible material. Metal trees are also acceptable, with illumination by spot or reflective lights only.

- Seasonal lighting must be identified by an Underwriter's Laboratories label or listing (UL).
- No decorations may be placed on or hung from pipes or sprinkler heads.

Smoking

- Smoking is prohibited in all University undergraduate residential communities. This includes student rooms, offices, lounges, entryways, hallways, kitchens, bedrooms, elevators, and stairwells. Additionally, persons who smoke outside the residence halls must do so 25' from the building or any extending wall, awning, or other building feature, or where it is otherwise posted.

Cornell University Fraternity and Sorority On-Campus Student Housing Fire Safety Policies

Cornell University Fraternity and Sorority on-campus student housing are the “Fraternity & Sorority On-Campus Student Housing” facilities listed in the Facility Fire Safety Equipment table on page 19 of this document. Cornell University owns these facilities, but Cornell does not supervise or control the fraternity or sorority activities.

To be allowed to operate, all fraternities and sororities at Cornell must each year sign a Fraternity and Sorority Operating and Management Agreement which obligates the fraternity or sorority to comply with all University standards, policies, rules and regulations, including the University Recognition Policy for Fraternities and Sororities, and all applicable Federal, New York State, and local ordinances and regulations including those related to fire safety.

The following fire safety related policies for Cornell University on-campus fraternity and sorority student housing are taken from the current Cornell University-Office of Fraternity and Sorority Affairs Fraternity / Sorority Residence Contract.

Refrigerators And Other Electrical Appliances

- Halogen lamps are permitted provided that the bulb does not exceed 150 watts.
- Only vibrating-compressor-type refrigerators drawing no more than three amps to start and one and half amps while running are permitted in bedrooms. During any official University recess in which the Fraternity / Sorority Residence will be closed for more than four days, you must remove all food from your refrigerator, disconnect it, and leave the door open. All other electrical devices must be turned off during any official recess.
- You may use electrical devices such as radios, record players, tape recorders, typewriters, hair dryers, razors, and clocks provided they are plugged into outlets in your room and do not exceed the amperage limits of the circuits in the room.
- Constructing computer connections between rooms is prohibited as is running an electrical cord from your room to a corridor outlet.

Food Preparation

- Fire-safety requirements prohibit cooking anywhere in the Fraternity / Sorority Residence except in designated kitchens. Coffeepots, popcorn poppers, and automatic toasters that include self-contained thermostatically controlled heating elements are the only food-preparation appliances that may be used in your room. Any electrical cooking

appliance not thermostatically controlled is prohibited anywhere in the Fraternity / Sorority Residence and will be confiscated.

Fire Safety

- You must not store explosive or flammable substances in the University-owned Fraternity/Sorority Residence.. No open flames are permitted.
- You must not place false alarms, interfere with the proper functioning of the fire-alarm system, or tamper with or remove smoke detectors, fire hoses, extinguishers, or fire-fighting equipment. You may not hang anything from sprinkler pipes or any part of the fire sprinkler system.
- Violators are subject to prosecution under the Campus Code of Conduct or state or municipal law. Placing a false alarm is a class B misdemeanor and can result in a ninety-day jail term and/or \$500 fine for the first offense.
- You and your guests must evacuate the building when the fire alarm sounds.

Fire Safety Education and Training

Campus Life and Residential Programs Facilities

Resident Advisors receive annual fire safety training. This training includes such topics as:

- Principles of fire preventions
- Principles of fire safety
- Facility fire protection equipment and how to prevent false alarms
- How to report a fire
- Evacuation procedures and actions to take in the event of an emergency

The training program utilizes elements from the People's Burn Foundation College Fire Survival program. <http://igot2kno.org/default.aspx>

Resident Advisors hold floor meetings with residents at the beginning of the school year and discuss fire safety. Topics discussed include: general fire safety, evacuation policies and procedures, and house rules related to fire safety

Fraternity and Sorority Facilities

House Managers of each on-campus fraternity or sorority student housing facility are required to attend annual house manager training that includes a session on fire safety.

On-Line Training Programs

Environmental Health and Safety also offers various health and safety related training, including fire safety training, through the Cornell's on-line training system "Blackboard." Please visit the Blackboard web site at: <http://blackboard.cornell.edu/> to view and enroll in any of the Environmental Health and Safety courses listed in the course catalog.

Fire Safety Inspections

The Cornell University campus spans a number of different municipalities and jurisdictions. The University Fire Marshal works with these different entities to coordinate fire and building code inspections and to promote code compliance across campus.

The following inspections are conducted in Cornell on-campus student housing:

- New York State Office of Fire Prevention & Control – Annual fire code inspection in all Cornell facilities.
- Ithaca Building Department – Annual housing inspection in all Cornell student housing facilities in the City of Ithaca.
- Ithaca Fire Department – Annual fire code inspection in areas of public assembly and adjacent spaces (some of these public assembly spaces are located in housing facilities).

Fire Safety Improvements

Cornell University Environmental Health and Safety operates continuous programs to conduct testing and inspection of fire protection equipment as required by New York State Fire Code and other standards. Repairs and maintenance are completed as needed by trained personnel. Improvements to fire safety equipment and procedures are undertaken as needed.

Emergency Procedures

Reporting Fires and Emergencies

Report on-campus fires and emergencies to the Cornell 911 Center, operated by Cornell Police, by one of these methods:

- call 911 from any campus phone
- call 607-255-1111 from a cellular or off-campus phone
- use a Blue Light Telephone or other emergency telephone
- activate the building fire alarm using a manual fire alarm pull-station.

The Cornell 911 center will notify the on-duty Environmental Health and Safety Emergency Services Specialist and the Tompkins County 911 Center.

All fires, including those that have been extinguished, must be reported to Cornell Police.

Emergency Procedures

Cornell has published an Emergency Response Guide to help members of the Cornell Community properly respond to emergencies on campus. The current version of the guide can be found at: http://www.epr.cornell.edu/central_plan/resp_guide.cfm

Evacuation Procedures

All persons are required to evacuate from and exit the building any time: the fire or evacuation alarm sounds; an evacuation announcement is made; or a university official orders you to evacuate.

When evacuating, remember to:

- Close any open windows in your room
- Take jackets or clothing needed for protection from the weather
- Feel the top of your room door for heat before opening it
- Stay low and open the door slowly checking for signs of smoke or fire in the corridor
- Close your room door behind you as you leave
- Proceed quickly to the nearest exit
- Move away from the building and to your floor's meeting location
- If you have information about the emergency then report it to emergency responders
- If you are unable to exit the building due to a disability or fire conditions, take refuge in a safe location and call 911. If possible, signal out a window to emergency responders.

Reporting Malfunctioning Local Smoke Alarms

All on-campus student housing rooms are equipped with local smoke alarms that when activated will sound an in-room audible alarm. In-room smoke alarms do not sound a building-wide alarm and do not send an alarm signal to the Cornell 911 Center but many of these smoke alarms are connected to the building fire alarm system for power and monitoring purposes.

Report malfunctioning smoke alarms to the Cornell 911 Center by calling (607) 255-1111 at anytime, day or night. Environmental Health and Safety Emergency Services personnel are on duty 24 hours a day and will respond to rectify the problem.

Never cover, remove, or tamper with smoke alarms or other fire protection equipment.

Cornell University Fire Safety Plan

The current Cornell University Fire Safety Plan is shown on the next page. This fire safety plan is applicable to all campus facilities, including on-campus student housing facilities, and is posted throughout campus buildings.

IN CASE OF EMERGENCY

Cornell University Fire Safety Plan (September 2009)

CALL
911

EMERGENCY

Fire Emergency

1. REPORT
 - Alert others in the immediate area and evacuate the room.
 - Activate fire alarm pull boxes to sound the alarm.
 - ✓ The fire department is automatically notified.
 - CALL 911 from a safe location
 - ✓ Report the location and size of the fire
2. CONFINE THE FIRE BY CLOSING THE DOOR TO THE ROOM.
3. EXIT VIA THE NEAREST SAFE ESCAPE ROUTE
 - Feel the upper part of the door – do not open it if it is hot.
 - Open door slowly if it is cool, be ready to close it if smoke or heat is present.
 - Walk, do not run to exits. Use stairways to exit, do not use elevators.
4. MOVE TO YOUR EMERGENCY MEETING SITE
 - Report any missing or trapped people to the emergency responders
 - Move away from the building

EVACUATION ALARM SIGNALS
for this facility may include
HORNS / STROBES / VOICE

Medical Emergency

1. PROTECT VICTIM FROM FURTHER INJURY
 - Remove any persistent threat to the victim.
 - Do not move the victim unnecessarily.
2. CALL 911 TO OBTAIN EMERGENCY MEDICAL CARE
 - Report the location of the person and the nature and extent of injuries.
 - Call from a safe location.
3. PROVIDE FIRST AID IF YOU HAVE APPROPRIATE TRAINING

Police Emergency

1. PROTECT YOURSELF FROM HARM
 - Attempt to remove yourself from any danger.
2. CALL 911 TO OBTAIN POLICE ASSISTANCE
 - If possible, call from a safe location.
3. PROVIDE THE FOLLOWING INFORMATION TO THE POLICE:
 - Location of Crime
 - Nature of crime & specifics
 - Any injuries
 - Description of suspects
 - Direction of travel of suspects
 - Description of vehicles involved
4. DO NOT PURSUE OR ATTEMPT TO DETAIN SUSPECTS

Other Emergencies

1. EVACUATE IF NEEDED and CALL 911 TO REPORT OTHER EMERGENCIES

For more information on Fire Prevention: www.ehs.cornell.edu/fire
