WINTER SAFETY TIPS – EXITING VEHICLES

1. Do not grab objects as you are exiting. Exit the vehicle then retrieve items.

2. Use vehicle for support.

3. Use caution when shifting your weight to exit a vehicle.

4. Maintain three points of contact when stepping out of vehicle.

Areas in between cars are usually some of the worst ice conditions. People clean off their cars, pull out and someone may take their place before our staff can clear the buildup.

Please practice these safety tips as you exit your vehicles this winter to prevent Winter Slips and Falls!
