HAZARDOUS WASTE
SATellite Accumulation Area

1) Are all containers of hazardous waste labeled with the words "Hazardous Waste" and with other words identifying the contents and hazards?

2) Are all hazardous waste containers closed?

3) Are all hazardous waste containers in the same room the waste was generated in?

4) Are all incompatible wastes separated from each other?

5) Are all containers in good condition?

6) Have all spills been cleaned up?

7) Is the hazardous waste properly labeled and packaged for EH&S pick up?
