IDENTIFICATION

MSDS Record Number: 5617569
Product Name(s): 1,4-Butanediol
Product Identification: MSDS NUMBER: B5740
                      PRODUCT CODE: D570
                      C.A.S. NUMBER: 110-63-4
Date of MSDS: 2007-07-03
Currency Note: This MSDS was acquired from the supplier on 2007-09-06.

MANUFACTURER/SUPPLIER INFORMATION

Company: MALLINCKRODT BAKER INC

MATERIAL SAFETY DATA

Effective Date: 07/03/07
Supercedes: 05/07/07

MSDS MATERIAL SAFETY DATA SHEET
From: Mallinckrodt Baker, Inc.
      222 Red School Lane
      Phillipsburg, NJ 08865

Emergency Telephone Number: 908-859-2151

CHEMTREC: 800-424-9300 (USA)
           703-527-3887 (Outside USA & CANADA)
CANUTEC:  613-996-6666

NOTE: Use CHEMTREC and CANUTEC phone numbers only in the event of a chemical emergency.

All non-emergency questions should be directed to Customer Service
(1-800-582-2537) for assistance.

J. T. BAKER

1,4-Butanediol

1. Product Identification
   Synonyms: 1,4-Butylene Glycol; 1,4-Dihydroxybutane;
              1,4-Tetramethylene Glycol
   CAS No: 110-63-4
   Molecular Weight: 90.12
   Chemical Formula: HO(CH2)4OH
2. Composition/Information on Ingredients

3. Hazards Identification

Emergency Overview

CAUTION! MAY BE HARMFUL IF SWALLOWED. MAY CAUSE IRRITATION TO SKIN, EYES, AND RESPIRATORY TRACT. MAY AFFECT KIDNEYS.

SAF-T-DATA(tm) Ratings (Provided here for your convenience)

Health Rating: 2 - Moderate (Life)
Flammability Rating: 1 - Slight
Reactivity Rating: 1 - Slight
Contact Rating: 1 - Slight
Lab Protective Equip: GOGGLES; LAB COAT; VENT HOOD; PROPER GLOVES
Storage Color Code: Green (General Storage)

Potential Health Effects

Inhalation:
A nonvolatile liquid - vapor inhalation is unlikely. Inhalation of high vapor concentrations may cause respiratory tract irritation and have a narcotic effect with symptoms of drunkenness.

Ingestion:
Large oral dose may produce symptoms of narcosis, incoordination, and kidney damage.

Skin Contact:
No adverse health effects expected. Prolonged contact may cause slight irritation.

Eye Contact:
May cause mild irritation, possible reddening.

Chronic Exposure:
No information found.

Aggravation of Pre-existing Conditions:
No information found.

4. First Aid Measures

Inhalation:
Remove to fresh air. Get medical attention for any breathing difficulty.

Ingestion:
Induce vomiting immediately as directed by medical personnel. Never give anything by mouth to an unconscious person.
Skin Contact:
Immediately flush skin with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention if irritation develops.

Eye Contact:
Immediately flush eyes with plenty of water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get medical attention if irritation persists.

5. Fire Fighting Measures

Fire:
Flash point: 121°C (250°F) OC
Autoignition temperature: 402.5°C (756°F)
Slight fire hazard when exposed to heat or flame.
Hazardous Combustion Products: Highly flammable tetrahydrofuran may be produced.

Explosion:
Not considered to be an explosion hazard.

Fire Extinguishing Media:
Use alcohol foam, dry chemical or carbon dioxide. (Water may be ineffective.) Water or foam may cause frothing. Direct stream of water can scatter and spread flames. Water spray may be used to keep fire exposed containers cool. Do not allow water runoff to enter sewers or waterways.

Special Information:
In the event of a fire, wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode.

6. Accidental Release Measures

Ventilate area of leak or spill. Remove all sources of ignition. Wear appropriate personal protective equipment as specified in Section 8. Isolate hazard area. Keep unnecessary and unprotected personnel from entering. Contain and recover liquid when possible. Use non-sparking tools and equipment. Collect liquid in an appropriate container or absorb with an inert material (e.g., vermiculite, dry sand, earth), and place in a chemical waste container. Do not use combustible materials, such as saw dust. Do not flush to sewer!

7. Handling and Storage

Keep in a tightly closed container. Store in a cool, dry, ventilated area away from sources of heat or ignition. Protect against physical damage. Store separately from reactive or combustible materials, and out of direct sunlight. Containers of this material may be hazardous when empty since they retain product residues (vapors, liquid); observe all warnings and precautions listed for the product.

8. Exposure Controls/Personal Protection
Airborne Exposure Limits:
None established.

Ventilation System:
In general, dilution ventilation is a satisfactory health hazard control for this substance. However, if conditions of use create discomfort to the worker, a local exhaust system should be considered.

Personal Respirators (NIOSH Approved):
For conditions of use where exposure to the substance is apparent and engineering controls are not feasible, consult an industrial hygienist. For emergencies, or instances where the exposure levels are not known, use a full-facepiece positive-pressure, air-supplied respirator. WARNING: Air purifying respirators do not protect workers in oxygen-deficient atmospheres.

Skin Protection:
Wear protective gloves and clean body-covering clothing.

Eye Protection:
Use chemical safety goggles and/or a full face shield where splashing is possible. Maintain eye wash fountain and quick-drench facilities in work area.

9. Physical and Chemical Properties

10. Stability and Reactivity

Stability:
Stable under ordinary conditions of use and storage.

Hazardous Decomposition Products:
When heated to decomposition, emits tetrahydrofuran and carbon oxides.

Hazardous Polymerization:
Will not occur.

Incompatibilities:
1,4-Butanediol incompatibilities include strong inorganic oxidizers, nitric acid, strong hydrogen peroxide. Forms highly flammable tetrahydrofuran when heated in presence of sulfuric acid.

Conditions to Avoid:
Heat, flames, ignition sources and incompatibles.

11. Toxicological Information

For 1,4-Butanediol: LD50 oral rat: 1525 mg/kg. Investigated as a

tumorigen and mutagen.

Environmental Fate:
When released into the soil, this material may biodegrade to a moderate
extent. When released into water, this material may biodegrade to a
moderate extent. When released into water, this material is not expected
to evaporate significantly. This material is not expected to
significantly bioaccumulate. When released into the air, this material is
expected to be readily degraded by reaction with photochemically produced
hydroxyl radicals.

Environmental Toxicity:
No information found.

12. Ecological Information

13. Disposal Considerations

Whatever cannot be saved for recovery or recycling should be managed in
an appropriate and approved waste disposal facility. Processing, use or
contamination of this product may change the waste management options.
State and local disposal regulations may differ from federal disposal
regulations.

Dispose of container and unused contents in accordance with federal,
state and local requirements.

14. Transport Information

Not regulated.

16. Other Information

NFPA Ratings:
Health: 1 Flammability: 1 Reactivity: 0

Label Hazard Warning:
CAUTION! MAY BE HARMFUL IF SWALLOWED. MAY CAUSE IRRITATION TO SKIN, EYES, AND RESPIRATORY TRACT. MAY AFFECT KIDNEYS.

Label Precautions:
Avoid contact with eyes, skin and clothing.
Wash thoroughly after handling.
Avoid breathing mist.
Keep container closed.
Use with adequate ventilation.

Label First Aid:
If swallowed, induce vomiting immediately as directed by medical personnel. Never give anything by mouth to an unconscious person. If inhaled, remove to fresh air. Get medical attention for any breathing difficulty. In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. Get medical attention if irritation develops or persists.

Product Use:
Laboratory Reagent.
