Federal and state laws and the Cornell University Health & Safety Policy requires all employees (including paid graduate assistants) who may be exposed to hazardous materials to attend safety training and be informed of the potential health and safety risks that may be present in their workplace. The following training classes meet compliance requirements of applicable OSHA, DOT and/or EPA regulations. Staff, faculty and graduate students are strongly encouraged to attend these classes and may be required by some colleges and departments. There is also a listing of web based health and safety courses offered by EH&S on our training page.

http://sp.ehs.cornell.edu/training/Pages/default.aspx

Pre-registration is requested for all classroom sessions due to limited seating capacity.

A minimum enrollment of 4 people may apply for some classes. You may also receive a reminder of your enrollment 3 days prior to the date of the session. Register for all Training (classroom or web-based activities) in CU Learn

Faculty, Staff and Students (includes undergraduate & graduate), Visitors, Guests or Affiliates (USDA or BTI) visit the EHS Training page for more instructions: http://sp.ehs.cornell.edu/training/Pages/default.aspx

CU Learn or Learner Record questions? Email: CULEARN-L@cornell.edu
Blackboard questions? Email: atc_support@cornell.edu

EHS Course Calendar: http://sp.ehs.cornell.edu/training/Pages/default.aspx#Calendar

IMPORTANT NOTICE: EHS HAS GONE TO “PAPERLESS” ROSTERS. YOU MUST BRING YOUR CORNELL ID CARD TO TRAINING SESSIONS. IF YOU KNOW YOUR EMPLOYEE/STUDENT ID NUMBER THAT WILL WORK AS WELL.

Research and Laboratory Safety:

#2555 Laboratory Safety

Wednesday, October 5, 2016 – 9:00 am, 221 Weill Hall
This required program provides training to comply with the OSHA Laboratory Standard. It covers information on the OSHA Laboratory Standard, laboratory safety hazards, toxicology, personal protective equipment, standard operating procedures, and material safety data sheets. It also covers specific chemical hazards, symptoms of overexposure, and emergency response. Training can be completed on-line via CU Learn

Length of training: 1 hr. 30

#1074 Bloodborne Pathogen- Initial Training

Wednesday, October 5, 2016 – 10:45 am, 221 Weill Hall
Tuesday, October 18, 2016 – 3:00 pm, 221 Weill Hall
Wednesday, November 2, 2016 – 9:30 – 11:00 am, 221 Weill Hall

Initial training for all individuals who work with or have reasonably anticipated skin, eye, mucous membrane, or parenteral contact with human blood or blood components and body fluids; unfixed human tissue or organs including cell or tissue cultures; and blood, organs or other tissues from experimental animals infected with HIV or hepatitis virus. Refresher training is required every 12 months.

Length of Training: 1 ½ hour

Day 1 #2344 & Day 2 #2345 Radiation Safety for Users of Radioactive Material

#2344 Day 1 - Monday, October 17, 2016 – 1:00 pm, Room 140 East Hill Office Building
#2345 Day 2 - Wednesday, October 19, 2016 – 1:00 pm, Room 140 East Hill Office Building

You must sign up for Day 1 and Day 2 of "Radiation Safety for Users of Radioactive Material". All individuals (including those who have worked with radioactive materials at other institutions) are required to take this training course before being listed as a "user" on Cornell's license for radioactive materials. The course trains individuals how to assess and minimize exposure to radiation and contamination and provides an understanding of the health risks associated with ionizing radiation, the requirements of the University's radiation safety program, and procedure to follow in the event of an emergency. The course consists of two 3-hour presentations. Passing an on-line quiz is required after attending the 2-day course.

Length of Training: 3 hours each day Class limited to 30 people
**Fire Protection and Emergency Services**

# 5350 AHA Heartsaver AED/CPR  
**Saturday, October 8, 2016 – 10:30 – 1:30 pm**  
**Friday, October 14, 2016 – 8:00 – 11:30 am**  
**Saturday, October 29, 2016 – 10:30 – 1:30 pm**

This course is the nationally certified American Heart Association Heartsaver Automated External Defibrillator (AED) and Cardio Pulmonary Resuscitation (CPR) course. Certification is valid for 2 years.

*Length of training: 4 hours*  
*Class limited to 8 people*
